Learn the POEMS

1) Daffodils

I wandered lonely as a cloud
That floats on high o'er vales and hills,
When all at once I saw a crowd,
A host, of golden daffodils;
Beside the lake, beneath the trees,
Fluttering and dancing in the breeze.
Continuous as the stars that shine
And twinkle on the milky way,
They stretched in never-ending line
Along the margin of a bay:
Ten thousand saw I at a glance,
Tossing their heads in sprightly dance.

The waves beside them danced; but they
Out-did the sparkling waves in glee:
A poet could not but be gay,
In such a jocund company:
I gazed--and gazed--but little thought
What wealth the show to me had brought:

For oft, when on my couch I lie
In vacant or in pensive mood,
They flash upon that inward eye
Which is the bliss of solitude;
And then my heart with pleasure fills,
And dances with the daffodils.

2.) Foundation of Life

If you are always looking for fault,
that is what you will find-
If you are always looking for fault,
that is what you will find-
and you'll never have peace of mind.
If you are always looking for the bad,
you'll never see the good,
If you are always looking for the bad,
you'll never see the good, surely must be clearly
understood-
Don't look for the shadow and the sun you will see,
Don't look for the shadow and the sun you will see.
and a better human being you will surely be!

3.) How Beautiful the World Is

How beautiful the world is,
How blue the sky above,
How green the grass in the morning dew,
How musical the dove.
Eyes to see the colours bright,
Ears for music of delight,
Nose to smell the fragrant rose,
Skin to feel the breeze that blows.
How beautiful the world is,

How blue the sky above,
God is there in all creation
Flowing forth in light and love.
The song of the stars resounds in the heavens,
The song of the sun awakens the day,
The song of my heart is the sun in my soul,
And I'll listen, and listen, to what it can say

4.) Where am I?

In the hand of God is the Universe,
In the Universe is our galaxy,
In our galaxy is the Solar System,
In the Solar System is the Earth,
On Earth is the continent of Africa,
In Africa is the country of South Africa,
